CREATIVITY WITH A PERSONAL TOUCH

*“We Believe in  
Offering Effective,  
Affordable  
and Unique  
Design Solutions  
To Meet  
Your Needs”*

## PRESENTATION DEVELOPMENT

- Do you need to design and produce a PowerPoint presentation for that big meeting?
- Have you assembled your presentation and just need some professional finishing touches?
- Is your in-house department overwhelmed with too many projects?

Tingle Design can help. No project is too big or small. Whether you need a customized presentation, on-going outsource services, or help with a single project, Tingle Design is your PowerPoint solution.

## PRINT/GRAPHIC DESIGN

Whether you are in the process of creating your brand through logo design or you already have an established identity, it is important to convey a consistent marketing message through the use of supporting materials. Not only will you appear more professional to your target market, you will also reinforce your company's brand identity.

We design communications materials associated with brand development plan such as brochures, newsletters, newspapers, letterhead, logos, media kits, promotional kits and other print collateral.

Our designs are creative and will capture the essence of an organization's brands, products and/or services.

***You can make a first impression only once -  
Make sure it's a good one!***

## WEBSITE DESIGN & DEVELOPMENT

We provide a full range of web design services, including database development, design and online marketing. We customize the look and feel of each client's website based on the needs and goals of the project.

We help organizations develop and manage its Internet presence and on-line marketing efforts.
